DESA, D. J., and SHEILA NICHOLLS. Haemorrhagic necrosis of the adrenal gland in perinatal infants: a clinico-pathological study (Plates LXVIII–LXXIX) . . 133

NAGI, A. H. Histological, ultrastructural and immunofluorescence studies in membranoproliferative glomerulonephritis (Plates LXXX–LXXXIII) . . 151

ADAM, S. E. I., and E. THORPE. Influence of cold environment on hepatic changes produced by repeated doses of carbon tetrachloride (Plates LXXXIV–LXXXVII) 155

TOMLINSON, B. E., and DOROTHY KITCHENER. Granulovacuolar degeneration of hippocampal pyramidal cells (Plates LXXXVIII–LXXXIX) 165

BURNS, JAMES. The heart and pulmonary arteries in rats fed on *Senecio jacobaea* (Plate XC) 187

FORNO, LYSIA S., and MARGARET E. BILLINGHAM. *Allescheria boydii* infection of the brain (Plates XCI and XCII) 195

STUART, ANGUS E. Auto-allergic nucleolysis (Plate XCIII) 199

VELO, G. P., F. BERTONI, A. CAPELLI and G. MARTINELLI. Lysosomes as mediators of parenchymal lesions in adjuvant-induced arthritis in rats 201

BOOKS RECEIVED 207

No. 4—April

POLTERA, A. A. The pathology of intracranial venous thrombosis in oral contraception (Plates XCIV–CI) 209

WEBB, JOHN N. The development of human skeletal muscle with particular reference to muscle cell death (Plates CII–CXI) 221

BROWN, PATRICIA C., J. DORLING and L. E. GLYNN. Ultrastructural changes in experimental allergic orchitis in guinea-pigs (Plates CXII–CXXXI) . . 229

PLEŠTINA, R., and H. B. STONER. Pulmonary oedema in rats given monocrotaline pyrrole (Plates CXXXII–CXXXIV) 235

SEAWRIGHT, A. A., and ROBYN M. O'DONAHOO. Light- and electron-microscope observations of the liver of the mouse after a single oral dose of ngaione (Plates CXXXV–CXL) 251

NAGI, A. H., A. Z. BARABAS and R. LANNIGAN. Production of membranous nephropathy in rabbits (Plates CXLI–CXLV) 261

NAGI, A. H., and A. Z. BARABAS. Induction of a progressive nephropathy in rats by injections of human lung extract in Freund's complete adjuvant (Plates (CXLVI–CXLVIII) 271

SZMIGIELSKI, S., K. KWARECKI, J. JELJASZEWICZ and C. ZAK. Increased vascular permeability induced by staphylococcal alpha-toxin 277
